Access to In-Network Providers

Because we do business across many different jurisdictions and because state and/or federal regulations generally require network accessibility standards specific to a certain jurisdiction and/or line of business, we do not have a single set of network accessibility standards. Rather, we adopt the accessibility standards applicable to each of the jurisdictions and lines of business it manages to meet the needs of its clients and recruits its providers in order to meet the accessibility needs of those clients.

If there are no participating providers in your area, please contact assistance.

Members may seek covered services from an in-network or out-of-network provider without preauthorization or referral.

Vision Members in KY: Vision services may be provided by a licensed Optician, Ophthalmologist and/or Optometrist.

Dental Members in KY: Dental services may be provided by a licensed Dental Hygienist and/or Dentist.

A Participating Provider includes a dentist or dental hygienist who has been selected by Us for inclusion in the Participating Provider Program.

In-network participating providers agree to accept our participating provider maximum allowed charges as payment in full for services rendered. When care is given by in-network participating providers, the insured will generally incur less out-of-pocket costs for services rendered.

For Members in Montana:

Montana members that have obtained services due to a network inadequacy (an in-network provider is not available within fifty (50) miles to accommodate a member's appointment request) may contact our Contact Center department at (888) 400-9304 and may request that the claim (with an out-of-network provider) be reprocessed as if they visited an in-network provider.
